"Todd Rubin of Finz and Finz won our case. My child had a supracondylar elbow fracture with displacement. This is a significant break which included nerve damage. This case was not simple because it happened on a playground at a public school, but Finz and Finz won the case for us."

The Moore Family

"I must say through this rough time of losing my mother, the law firm of Finz & Finz, P.C., helped my family every step of the way. The lawyer that was assigned to our case was a shark in a sea of fish when he spoke in the court room. The Moore family is very grateful for the hard work and effort that this firm provided. I would definitely recommend this firm!!!"

The Dowd Family

"I was involved in an accident that caused the amputation of my index finger. I cannot say enough about the job that Todd and Stuart did with my case. Initially I was told by two other firms that there was nothing they could do for me. Todd took the time to listen to me and properly researched everything necessary to build our case. They were always honest about realistic expectations and even managed to exceed them when settlement time came. Todd Rubin and Stuart Finz are the attorneys you NEED in your corner. I am eternally grateful for their time and concern."

"Finz & Finz law firm did and excellent job with my case. It wasn't the easiest but Todd Rubin and the rest of the team made sure that they were by my side for the whole process and made sure that I understood everything that was happening, and broke things down when I didn't understand. Even after my case was settled (of course we won!!!) someone called me just to check up on me and see how I was doing. The firm exercised great team work and without a doubt if I ever need a lawyer, I would never hesitate to call (which I did) and I would recommend them to everyone!!!!!!"

"Like all who seek out a malpractice attorney, my mother's world had been turned upside down. She lost someone, to NO fault of their own, and couldn't bear to think the people responsible would ever have the opportunity to be so careless, thoughtless and unprofessional again. Finz & Finz, P.C. saved her from an unsettled life, and gave her the closure she so desperately needed. My mother wasn't just represented by one attorney, she was represented by an entire firm – attorneys, paralegals, and receptionists. Each person she was in contact with was instrumental in her case's outcome. She was told from the beginning that the value of her case may not be what the firm hoped, but they would fight for everything she deserved. They proved that no matter how much the monetary outcome is in a case, a client will be treated equally, whether a case is worth millions or not. This firm fought for my mother to the very end. She was treated with respect, compassion, patience and kindness. Ellen Sundheimer and CaraMia Hart held her hand throughout this grueling and brutal process of reliving this life changing event. They kept her updated along the way and guided her with gentle and wise advise. What can I say, I didn't ever want my mother to need the services or representation of a malpractice attorney, but I am so very grateful that she was represented and cared for by Finz & FInz, they brought value and worth to a life that was lost, a life that deserved so much better."

"Throughout my husbands four year battle with cancer the team at FINZ & FINZ were caring and responsive to help us through this heartbreaking journey we unfortunately had to travel. Without their guidance and knowledge we both would've been lost in our grief and pain. STU FINZ and his incredible team of lawyers along with his entire team of experts, got us through each painful phase of living through his misdiagnoses. I never would have had the strength to continue on and fight for my husbands injustice. LAURA'S compassion and guidance and endless diligence kept me informed and at peace knowing all that was legally possible was being done to rectify the injustice that was stowed upon my husband to bear. We never felt alone. There was ALWAYS someone to talk to, to listen to us, and to hold us up when times became nearly impossible to continue on The respect and professionalism they showed us speaks for itself. My gratitude and heartfelt appreciation will remain loyal to the FINZ & FINZ LAW FIRM forever. The huge settlement they won for us could never replace the loss my family had to endure when we lost my husband, but ensured us that me and my children's future will be financially secured.

We went in as "clients, and left as "Family .❤

Thank you all."

"My brother had lost the complete use of his eye due to a medical mistake caused by a hospital. I would like to thank the Law firm of Finz & Finz, which handled my brother's malpractice case with such expertise and was very attentive to his health needs at the same time. It was a complicated case which took a few years to successfully finalize.

Choosing the Finz & Finz Firm to represent him during his case has been one of the best decisions he has ever made. They have professional and personable staff. From reception to attorneys, especially Caramia R Hart treated us as family and with respect at his most vulnerable time. Caramia was very professional and helpful, she answered all questions quickly and thoroughly. She relentlessly fought for him and our family. Caramia Hart was there every step of the way and represented him in the most professional way possible. Ms. Hart was well prepared and certainly knew her way around the courtroom.

The entire team was always available to answer any of our questions. Choosing the right lawyer after an injury is crucial and I recommend you choose The law firm of Finz & Finz. They are excellent and the professional services for your legal needs. They are truly amazing and can deliver. We have been with the Finz & Finz law firm for years. If we could give them 6 stars we would.

I pray you never get hurt and need a lawyer. But he did and if you do, you will be more than pleased if you go with an amazing, knowledgeable caring and compassionate attorney like Caramia Hart and the Law firm of Finz & Finz. I especially want to thank Caramia R Hart for the amazing job she did with his case, she fought hard for him and he received a settlement prior to jury deliberations. If anyone has an unfortunate incident you'll be more than fortunate to have Finz & Finz P.C. as your representatives."

"Dear Stuart,

I want to thank you and your staff at Finz & Finz, P.C., for the fine work that you did in preparing and settling my case. When an accident happens there are many things to deal with and one of the important things is to make sure you have a good lawyer to help you. I feel I was lucky- I had the very best. I want to mention how impressed I was while watching you present my case. Each step from start to finish was detailed and presented perfectly with the information needed that ultimately won a settlement that we were both happy with.

Again, I want to thank Todd, Roseann, Laura and the rest of your staff involved in gathering the information necessary to present my case. Stuart, you and Finz & Finz, P.C., will be highly recommended by me and my family- and deservedly so!

"I had given up hope of filing a malpractice suit after being told I didn't have a case from several attorneys. Thank you! thank you! Finz & Finz, P.C., you are my hero!

Because of all of you and especially Stuart who fought hard for a seven figure settlement, I am forever grateful. I may have suffered from negligence but was well compensated thanks to amazing attorneys and incredible staff. You are the best! Forever grateful."

Jennifer Koelling

"I want to thank Finz & Finz, P.C., for their excellent work in settling my case. Before I was at Finz & Finz, P.C., another law firm was handling my case and it was just sitting there. I was concerned that my case was not being handled correctly, so I spoke to a friend who was previously represented by Finz & Finz, P.C., and highly recommended them to me. Since Finz & Finz, P.C., took over handling my case, I was always kept up to date as to what was happening and felt comfortable with them. Finz & Finz, P.C., took my case that was not going anywhere, and quickly did everything they needed to prepare the case for trial. On the eve of trial, Stuart Finz and Todd Rubin went to a mediation and secured a settlement for my case without even having to go to trial. The amount of the settlement exceeded my expectations and I would recommend them to anyone."

BP

"I was impressed by the presentation given by Stuart Finz, Esq. at the mediation held in Manhattan. Todd Rubin, Esq. did an excellent job gathering all the evidences and guiding me. I was stunned to find out the case was settled the following day! I will always be grateful and I highly recommend Finz & Finz, P.C., for their dedication and great support. I am a strong believer that Finz & Finz, P.C., strives for the best interest of their clients! Thank you so much to you and all your team!"

John & Kathleen Rooney

"It's been two months since the settlement for my wife, Kathleen, against several health-related defendants whose lack of proper care caused her to be a different person – immobile, incontinent with a short-term memory loss, and dependent on help for the rest of her life. The incredible team, commandeered by Stuart Finz and Jack Kanzler, was able to ascertain that her current condition was due to human error – something as simple as not feeding her properly while in the hospital led to a very changed lifestyle for our entire family.

Your law firm made sure that there was no rock left unturned. The entire team, including Lisa and Ellen, covered all the bases from reviewing thousands of medical documents, to having Kathleen seen by medical experts to determine her needs for the rest of her lifetime. Even after settlement, this team continues to tend to any questions or issues that are case-related. In the end, a mediator was used to bring about a very significant multi-million-dollar settlement.

Thankfully, we are now able to crawl out from under all of her medical expenses and realize that we will be okay financially for the rest of our lives.

THANK YOU, Stuart, for your leadership and compassion throughout this whole process."

John Sanders

"I thought I had grounds for a product liability lawsuit against a major pharmaceutical company. I consulted with several local attorneys in Westchester County and one in New York City. They all declined to take my case citing lack of resources to handle this type of case and the unlikelihood of success.

I went on the Internet and found the web site of Finz & Finz, P.C. It is an impressive site so I called Finz & Finz, P.C., and spoke with Todd Rubin a trial attorney at the firm and described my situation. I was pleased to hear Finz & Finz, P.C., was familiar with the law and the facts underlying my claim. I was confident that I would be in good hands if I signed on with them, so I did.

When Todd called me to tell me that the firm had negotiated a substantial settlement offer in my case I was elated. The amount was far more than I expected and the settlement offer came much sooner than I expected. Todd Rubin and the law firm jumped right into this case and skillfully maneuvered through its complex processes to achieve this wonderful outcome.

Thank you to Todd and the superb staff at Finz & Finz, P.C., for a job very well done."

"After suffering a devastating stroke that left my wife with right side paralysis and other serious neurological deficits, I contacted Finz & Finz, P.C. Jack Kanzler and Lisa Van Essendelft approached this case with the highest degree of professionalism and personal attention.

Their caring and compassion toward both my wife and myself was extremely heart-warming and well beyond what we could have imagined. At the trial, Jack's command of the facts of this complex case was astounding and along with the diligent and thorough research and support from Lisa, we received a settlement prior to jury deliberations in excess of our expectations. We owe a huge debt of gratitude toward Jack and Lisa and Finz & Finz, P.C., for their tremendous efforts."

Ernesto Rodriguez

"There are so many great things I'd love to say about Finz & Finz, P.C. First off I had presented my situation to other attorneys before and they would tell me I didn't really have a good case to win, that I'd only get $8,000 at max. Thankfully I didn't give up and researched some of the top lawyers and found Finz & Finz, P.C.

From the first call I felt they cared even if it wasn't a million dollar case, they were so understanding and compassionate that I felt a huge relief and knew I'd win my case. Throughout the whole process I was treated with so much kindness and respect. At the end my case was settled for $160,000 I literally cried after getting the news. After experiencing a very traumatic event in my life and feeling hopeless Finz & Finz, P.C., team gave me back hope and faith and for that I shall forever be thankful to them! Not only will I recommend them I will insist that they are the best!

Thank you again. I credit everyone from the receptionist, paralegals, attorneys and Stuart Finz."

"When our daughter was ten years old she fell and suffered disfiguring injuries requiring multiple surgeries. Both my husband and I are attorneys, and at the time of the accident each of us had more than 20 years of experience. Nonetheless, we turned to Stu Finz. We weren't even sure that we had a case. Stu and his team were truly remarkable. They handled our case with the utmost professionalism and grace. They were fiercely protective and also kind and gentle. Most incredible, however, were their negotiating skills. They recovered more money for our daughter than we ever dreamed possible. They are the lawyers that other lawyers turn to in a time of need, and we could never thank them enough."

Christopher Martino

"I just want to thank you for the work that you did on my case. You handled it with professionalism and dedication. I couldn't be more pleased with the outcome. Your firm was able to settle the case in a matter of months when I was fully expecting a year or 2 for a conclusion. I work in the court system and know how long these cases normally take. Lindsay was always pleasant when I called, Jennie and Ashley were never too busy to answer my emails or talk to me on the phone. And Todd did a wonderful job in the way he handled the case. I would recommend this Law Firm without hesitation."

Pam Mohr

"Finz & Finz, P.C., did an excellent job working with us on our case. You don't realize just how important your health is, until something out of your control jeopardizes it. The firm was empathetic, patient, diligent and did all of the necessary research to help us win a settlement. We cannot thank them enough for their time and commitment to getting this case resolved."

Yvonne Williams

"In March of 2014, I was experiencing severe abdominal pain. I was brought to a hospital by ambulance where I was diagnosed with endometriosis and told to follow up with my GYN. Two days later I ended up in the same hospital with the exact same problem.

Without any of the proper testing being done, my diagnosis remained the same. After two weeks of experiencing the same severe pain I spiked a fever of 104. I then decided to visit a second hospital. After doing a CT scan there I was correctly diagnosed with acute diverticulitis with an abscess and perforation of the colon. Months later, due to the first hospital's negligence, I had to do a partial colectomy which resulted in a few additional months of suffering.

Thanks to Finz & Finz, P.C., I was awarded a settlement within one year of contacting them. I am more than pleased with the amount and feel that they were relentless in making sure justice was served.

I must say that Finz & Finz, P.C., was extremely precise, dependable and professional when dealing with my case. They accomplished something that another law firm told me could never be done."

"I would like to thank all the people that were involved in my case, the lawyer Jack, in particular. And to all the people who were working at all times with me, informing me of the situation, always working to keep me calm and confident, being that for me these years of waiting were very stressful.

I want to make it clear that the work that attorney Jack did in the Court was excellent. I will be grateful to him my entire life, not only for his work in my case, but for the great human being he is. Again thanks to Finz & Finz, P.C., and all the staff in particular Jack and Marisa. Thank you."

Jose Humareda

"I just wanna say congratulations about the case. You won and us too! Thank God and to you and your team. You and your team work very hard. I have no words to describe how I feel. It is a deep emotion of happiness and joy.

I think my husband deserved it. He was a good employee, loyal, and hard worker. He loved his job because he never ever had a job with benefits so always he tried to do his best. He didn't care about the hours he worked, he worked more than 8 hours. He usually worked ten or twelve hours but he didn't care, he had to clean empty apartments, bathrooms, cabinets, kitchen but the most important thing is that he wanted to have under control the trash. He had to take out the trash of 17 floors, almost 300 hundred tenants, only one compactor machine. It was a huge amount of trash every day. It was hard but he needed to work to survive, send money to his family and for education of his kids so he didn't care that it was hard. He was happy doing what he was doing. He left everything clean, shiny, bright floors, elevators, windows, mirrors and smells good everywhere. He never had any complaints from tenants neither from his boss.

Big boss and tenants knew how hard Jose worked. He was appreciated and Jose felt happy. He always followed the way that Silvester showed him how to take out the trash until the tragic accident and it totally changed our lives in seconds. Our plans changed. My husband almost died. You can't imagine how much my kids and me suffered so much. We lived in pain day by day because my husband couldn't sleep well. He screamed because of the pain and nightmares. He had eleven surgeries. Now he is suffering the consequences for that terrible accident. He is still in pain not only for his right arm and hand also he feels pain on both legs. Before the accident he was healthy and strong and I know he will never recover totally. I think that there's not enough money to get his life back like before but we try to do the best in our life together with my boys. You know there were too many mistakes of the management and they blamed my husband.

Thank God it is a country where laws and justice exist and finally my husband got justice. First of all I wanna say thanks to God. Thank you so much Mr. Finz. You did it. Unbelievable you did it. That's the result of your very hard work.

We'll never forget the trial. You presented witnesses who gave an expert opinions. You gave strong arguments, evidences and passionate speech. Finally you convinced the jury with the truth, just the truth. It was so impressive, since the beginning until the end everything was perfect. You're really so dedicated to your job.

You're terrific and smart lawyers. I was honored that you represented me. We've never ever known professionals like you, simple person with big sense of understanding. We really have no words to express our feelings so we'll keep you in our mind forever and I think the members of the jury who were involved in this trial recognized that you did good job, not just them but everybody because they looked at you with great interest.

I'm really sure God appointed me to you. I ask God to give you many blessings to you and your family."

I was introduced to Stuart Finz and then later to his associate Jack Kanzler who handled my case with great expertise and thoroughness that I felt very comfortable in the knowledge that my kids future will be safe. They were always there lending an ear, giving there time and advise, I never felt like I was being a burden to anyone.

"Suffering with a devastating illness that had been mismanaged by my doctor for more than a decade, I had given up hope for a normal life. Jack Kanzler and his team at Finz & Finz, P.C., assured me that I could become a functioning part of society again.

Yes, they won me a great deal of money, but they did far more than that. They made me feel like a worthwhile person again. They stood up for me. They restored my self confidence and I am a new person. I can't imagine anyone else doing a better job than Finz & Finz, P.C."

Evelyn Cartagena

"Finz & Finz, P.C., was my counsel in a personal injury case and I couldn't have had better representation. The case was handled aggressively, ethically and efficiently. I highly recommend Finz & Finz, P.C.

I cannot fully express how grateful I was to have Stuart Finz and his associate Todd Rubin represent me in this matter. They were always patient, understanding and compassionate, and I truly felt lucky to have them by my side. I could not be happier with the outcome of my case and would highly recommend these advocates.

On a more personal note, I very much enjoyed working with Todd Rubin. His dedication, concern and interest in me as a client was very much appreciated. He always responded promptly to messages. It was always a great comfort to me to know that I could rely on his legal judgment during this time. I would recommend Finz & Finz, P.C., whole heartedly."

"Many thanks to Finz & Finz, P.C., for their legal representation in my lawsuit. Stuart Finz and Todd Rubin worked tirelessly for over 2 years and looked after all aspects of my case.

They kept me updated about all of the important issues related to my case and were reachable whenever I had questions. Besides being very competent attorneys, they are nice guys – they are compassionate, caring, and patient. I felt comforted to know I had such attorneys as my advocates. They fought hard on my behalf and negotiated a fair and just settlement. I couldn't have asked for more."

"In January 2011, my 94 year old mother fell walking off a senior citizen bus and broke her ankle. It was a very traumatic time for my mother and our family and it was important for us find a lawyer who we could rely on who was able to explain the system and help us work towards a favorable outcome.

Through a mutual contact, we met Todd Rubin an attorney at Finz & Finz, P.C. We want to thank Todd and the firm for all the support and guidance in dealing with our situation. Todd was always professional and courteous to my mother and me and he was able to secure a substantial settlement for my mother in a short period of time. My goal was to allow my mother to remain in her home and with the help from Todd, she is now able to do so. I would never hesitate to recommend Todd Rubin and Finz & Finz, P.C., to others."

"I remember how devastated I was when the pediatrician informed me that my 2 year old son had LEAD POISONING, prior to which I was in formed of his diagnosis for Autism. I wasn't sure of what to do until I came across Finz & Finz, P.C.' full page AD for Lead Poisoning in the Daily News. I contacted them right away. My sons' case was handled with care from the very beginning. The entire Finz & Finz, P.C., Staff are the most impressive group of people whom you could ever hope to have handle such a delicate case as my sons'. "It is with a great deal pleasure that I write this Testimonial on behalf of Finz & Finz, P.C. Three years ago I suffered a fall which resulted in a catastrophic injury to my left foot which necessitated surgery and a three week stay in rehab and a great deal of pain.

Never having been involved in a law suit before I had no idea of who to contact until I got a recommendation from someone that used Finz & Finz, P.C., to represent them. I immediately contacted them and despite the fact that many attorneys do not want to represent a senor citizen in a "slip and fall" they accepted my case. The lawyer assigned to my case (Jay Feigenbaum) never gave up. After 2-1/2 years of hard work Jay was able to secure a substantial settlement for me and my husband. Finz & Finz, P.C., is a first class law firm with outstanding offices and I would be remiss if I did not mention the support staff starting with the receptionist, the secretaries, and the paralegals that all treated me with empathy and respect. Last but certainly not least a special thank you to Mr. Stuart Finz, Esq., who gets involved in each and every case. I mean every word. God bless you all."

The Noce Family

"On the morning of December 7, 2007 the lives of my mother mine and my two sisters changed forever. All it took was one dreadful phone call with a voice on the other side telling my mother who picked up the call that my father was being taken by ambulance to Kings County Hospital, a place that became extremely familiar to us for months to come, but a place that before that morning we had never heard of.

My strong, gentle, humble and secure father who was the person that we went to for advice and loved us unconditionally, a person who was an operating engineer since he was able to drive and who was one of the first people that helped with the clean up of Ground Zero who was the best person companies would call to operate heavy equipment, was in a construction accident. Not by his own fault, but by the carelessness of another, he suffered a TBI (traumatic brain injury), with all the uncertainties that a scary word like TBI brings. My mother and our family were told that he needed surgery (a twelve hour brain surgery) to close the wound however that was going to be the easy part. Of course risks are always there when in surgery but we had the greatest trauma surgeons and our faith in God, yes it's amazing how faith can bring some peace in times like these.

So here comes the moment we were waiting for, the moment that we realized that life as we knew it was changed forever. He was in a medical induced coma for about a week, and when he finally was taken out of it, that moment when he opened his eyes for the first time, and we thought that like in the movies he was going to ask us what happened, only that in real life he didn't remember how to speak…….Not his native Italian language, not English, just a bunch of words that made no sense to us….He has aphasia…the person knows what he wants to say but the brain cannot get the correct word out….. My father was lost….His body battered and stitched up…. His personality was gone.

Now we needed to take care of him. He can no longer work, the uncertainty is scary, we want some sort of justice, this happened because of the carelessness of another person, we wanted to know that things can still be ok, medical bills, mortgage, my sister's college tuition, what was going to happen?

My mother needed to be the strong one now....She asked for help in finding a lawyer....So we found one....Only that after three years of putting his case together he gave us no hope of ever being able to bring some justice, my father by now was a little better after three years of rehab, medications and additional surgeries. We felt that this lawyer wasn't doing enough, that it almost seemed as if he was pulling for the other side, his case was given to every lawyer in that firm....Never handled by the person we hired to help him. Hope was slowly fading....

By now my father needed a strong lawyer with a team of people that are as strong as he is, someone who believed in my father and who will fight for him as if it was his own father, so my father asked me to please help him in finding a strong lawyer... someone who specialized in hard cases like his. We started researching lawyers in TBI cases.... one person always popped up...STUART FINZ, of Finz & Finz, P.C.

And did Mr. Finz fight.....

When my father called initially and said to Mr. Finz I cannot drive, Mr. Finz drove to his house and sat at his kitchen table and explained with the help of an interpreter that he was going to help him, fight for him, and bring some closure to him.

Mr. Finz arranged for additional depositions, more investigations, as my father's memory came back from that dreadful day, and he used to tell his other lawyer what happened but they never added to his depositions, Mr. Finz made sure my father's voice was heard.....when the other side called for additional depositions Mr. Finz fought with tooth and nail to have justice, depositions that would last hours on end....to fix what an incapable lawyer did.

About a year after Mr. Finz and his trusted team of lawyers took the case....they were able to take the case to mediation....and it ended in my fathers favor....

We are told that every person that we meet here is not by chance, they are meant to be part of your life.... for a minute, for a month or for a lifetime. And the impact that they bring will change the course of your life forever, I think my dad would have preferred to never have met any lawyers in his lifetime, however when an accident occurs and you need a VOICE, A FIGHTER , A FRIEND, he is glad that Mr. Stuart Finz was that person, that lawyer, that VOICE, that friend.

So thank you Mr. Finz, thank you Todd, thank you Yvette, and all the staff who in their small or big way helped bring justice and closure to my father."
